

Loan Preparation Fees are broken down as the following:

5 Investigatory Engineering Meetings..... \$250 X 5 = \$ 1,250

-Different firms to determine best path to take in regards to system

4 Meetings with Dick Unger..... \$650

-This included different research topics to complete the loan. Many visits to the DOH.

The development of the Small Water System Development Plan Guide.....\$1,500

-This included research, preparation, and supplies. This was prepared as a team effort with Carol Tribe, Ashley Hageman, Dick Unger, and Maria Lindberg.

Barghausen Engineering.....\$3,330

-This includes meetings, coordination, and Project Management services as well as Exhibits needed for Application and Project Management Serviced.

Preparation of the Cultural review \$270

Application Document Preparation..... \$450

Income survey cost.....\$350

What I have not charged for is the hundreds of hours and miles I have put into trying to get this loan to upgrade the system. Meetings in Olympia, Seattle, phone calls, letters, reports and emails. I am just hoping that all my effort pays off in making this a quality system for the Cristalina Customers.
