

State	Applicant Name	Project Description	Award
AK	Copper River Watershed Project, Alaska	Support citizen safety monitoring of the Trans-Alaska Pipeline System (Alaska North Slope, Yukon River drainage, Copper River drainage).	\$48,380.00
AZ	City of Mesa, Arizona	Elevating community awareness and education of pipeline safety issues using television-based targeted interactive advertising.	\$50,000.00
CA	The Tides Center, California	Evaluate safety of aging hazardous liquid and natural gas transmission pipelines in the pipeline corridor.	\$50,000.00
FL	City of Blountstown, Florida	Create a geographic information system (GIS) of distribution system.	\$50,000.00
FL	City of Clearwater, Florida	Create a geographic information system (GIS) of distribution system.	\$50,000.00
FL	Lake Apopka National Gas, Florida	Create a geographic information system (GIS) of distribution system.	\$50,000.00
GA	City of Elberton, Georgia	Create a geographic information system (GIS) of distribution system.	\$50,000.00
GA	Toccoa Natural Gas, Georgia	Create a geographic information system (GIS) of distribution system.	\$50,000.00
KS	Kansas Municipal Utilities, Kansas	Provide direct technical assistance to prepare 62 Kansas municipal gas utilities for emergency or disaster response pertaining to the natural gas pipeline system. The project will also target 100 percent participation in the KSMAP mutual aid program for Kansas utilities.	\$50,000.00
KY	Prestonsburg City's Utilities Commission, Kentucky	Upgrade and enhance gas leak detection program with the purchase of new safety equipment and training in the use of the new equipment.	\$26,000.00
MO	City Utilities of Springfield, Missouri	Upgrades to City Utilities of Springfield Leak Training Area and Fire Training facilities and equipment.	\$41,383.13
MO	City of St Peters	Enhance Community awareness of pipeline safety and related best practices through the development of a comprehensive website	\$8,734.00
MT	Northern Plains Resource Council, Montana	Disseminate information regarding pipeline construction and safety to affected landowners and county officials by Montana Dakota Pipeline Safety Landowner Exchange Project.	\$36,103.00
NE	Nebraska City Utilities, Nebraska	Purchase a remote methane leak detector to enhance pipeline leak detection capabilities.	\$16,500.00
OH	City of Hamilton, Ohio	Complete an engineering "make piggable" study of a high pressure gas distribution main.	\$50,000.00
PA	Bradford Glen Homeowners Association, Pennsylvania	Evaluate and assess safety of co-locating proposed AES pipeline adjacent to Columbia pipeline in the vicinity of a high consequence area.	\$50,000.00
PA	Safety, Agriculture, Villages, & Environment (S.A.V.E.) Inc., Pennsylvania	Education and outreach on pipeline safety involving the existing Columbia and proposed co-linear AES Mid-Atlantic Express LNG Project pipeline.	\$50,000.00
PA	West Vincent Township, Pennsylvania	Obtain funding for technical assistance in form of engineering and other scientific analysis of pipeline safety affecting the local community with regard to a Dominion Keystone project.	\$50,000.00
SD	Brookings County , South Dakota	Use PIPA guidanceregarding consultatong and planning zones to investigate creating and implementing an additional chapter to the Brookings County Zoning Ordinance.	\$12,000.00

TN	Oak Ridge Utility District, Tennessee	Improve distribution system monitoring capabilities, incorporate pipeline integrity management data into the development of a geographic information system, and add additional educational advertising for a public awareness safety campaign.	<b>\$50,000.00</b>
TX	City of Fort Worth	Geographic Information System (GIS) to manage the expanding pipelines systems that are causing development and planning issues	<b>\$25,000.00</b>
TX	Fort Worth League of Neighborhood Associations, Texas	Provide a comprehensive overview of all pipeline issues through a “State of Gas Pipelines in Fort Worth” report and dissemination of information to Fort Worth residents, elected officials, and natural gas drilling and pipeline operators.	<b>\$48,305.00</b>
VA	Montgomery County, Virginia	Underground pipeline inventory and assesment for incident management and planning	<b>\$24,630.00</b>
WA	Pipeline Safety Trust, Washington	Determining effective communication strategies to engage local public officials to improve pipeline safety in their communities.	<b>\$47,250.00</b>
WA	The Association of Washington Cities, Washington	Enhance public safety by improving local government land use planning and permitting practices in the vicinity of transmission pipelines.	<b>\$50,000.00</b>
